

TU SETH GREEN CHAPTER

FLY TYING COURSE

INTRODUCTION TO FLY TYING

This course is intended to teach a novice or beginner to fly tying, how to tie well proportioned and well constructed fishing flies for trout fishing.

The course will consist of seven 2 hour teaching sessions and one 2 hour review session.

During the review session a student may ask for a demonstration of a technique not covered during the teaching sessions.

Topics to be covered are:

How to select the proper fish hook for most flies.

The proper use of the appropriate tools used in fly tying.

Material selection and handling for and during fly tying

The processes used to tie well proportioned and well constructed Wet Flies, Nymphs, Dry Flies and Streamers.

Students will be expected to tie their own flies during the class.

EACH STUDENT WILL BE EXPECTED TO PROVIDE HIS OR HER OWN TOOLS AND MATERIALS.

Materials for tying the flies taught in THE FIRST CLASS ONLY will be provided.

The instructor will demonstrate each fly and provide assistance for the students while they are tying the same fly in class.

Tools required for the course:

Fly Tying Vise

Bobbin

Bobbin Threader

Dubbing Needle

Hackle Pliers

Scissors Medium

6/0 Black Thread
